

FOR MOTORHOMES

# Stay in a motorhome on private land

## Private Properties

Have an authentic experience and stay on locals' land

## Easy Booking

Organise and book your trip with ease all from one platform

## Trusted Hosts

No more uncertain freedom camping. No more crowded campsites.

## Unique Locations

Spend the night at vineyards, resorts, working farms and beaches

# Stay in a motorhome on private land

## Tips for Campable users

- ✓ Filter the types of sites you want to see via the button on the bottom right corner of the screen. Eg if you need a Host which provides a toilet or power, you can filter out any sites which do not offer these facilities.
- ✓ When possible, book a day in advance so your Host has time to prepare for your arrival.
- ✓ Once you've booked, contact your Host. They may have helpful tips for getting to their place.
- ✓ Make note of your booking details and get an offline map. Some sites are in areas without reception or wifi.
- ✓ Arrive before nightfall, unless agreed otherwise with your Host.

### How to use Campable

Download for free. Available on the App Store and Google Play

Browse available sites

Instant book. Enter your payment details only once

Travel your way. Plan in advance or book as you travel

## Campable FAQs

### To use Campable, what do I need?

As a traveller or 'Guest', all you need to do is download the Campable app, or create an account on the Campable website. The app is available on iPhone (iOS version 8.2 or newer) and Android (version 4.1 or newer) - and it's free. For Hosts, you do not need the app; all you need is access to the Campable website.

### Are Campable sites the same as campsites?

Campable sites are **not** the same as campsites. In most ways this is a great thing - each site is unique and private; usually you will be the only motorhome on the property; many provide experiences; and you will be staying with locals. However, **not every Campable site will provide the facilities** of a campsite. If you are wanting to stay at a site that provides specific facilities (toilets, power, a shower, etc.), please use the filter on the Campable app, so that sites which do not provide the facilities you need will be filtered out. The filter is located at the bottom right corner of the app. Hosts also select the facilities they offer, and these can be seen when you view a site's details.

### Can I trust Campable with my credit card details?

You can! We use a third-party secure payment provider, [Stripe](#), for all payments.
